---

## PROFESSIONAL EXPERIENCE

### **FundaciónUCR**

**2023 – Present**

#### **Full-stack developer intern**

Development and maintenance of a data management application that is more efficient and user-friendly than the previous system. Using ASP.NET 6, C#, SQL Server, DevExpress and Visual Studio. Ability to work independently and as a part of a team of developers to implement new features and fix bugs, helping to overall quality of the system.

### **Tintatex S.A**

**2022 – 2023**

#### **Full-stack developer**

Developed a web content management system. Using PHP, MySQL, WordPress and WooCommerce to build a fabric ecommerce site. Worked with Agile methodologies, assumed the role of scrum master during the deployment of the CMS. During this time, I learned the value of teamwork and good communication.

---
